h. On 16 August 1952, the first division of the air peoples police was activated. The division was composed of three regiments which were to be stationed in Cettbus, Bautzen and Kamenz respectively. A supply battalion was to be stationed in Cottbus, It was mentioned that the division headquarters was located in Dresden-Klotzsche.

The division was commanded by one lilpert (fnu) and his chief of staff Kurt Bitterlic, a former German Air Force pilot.

5. Since 1 September 1952, theoretical classes were held by Soviet instructors at Cottbus airfield. Young Soviet officers candidates acted as interpreters at these lectures. So far no actual flying was practiced.

25X1 Comment.

(1) The headquarters of the Air Peoples Police is located in the reconstructed administration building of Johannisthal cirfield.

 It is assumed that all new officers have to report to the headquarters in Johannisthal before they are assigned to the individual regiments.

(3) The three regiments of the 1st Division VP Luft are numbered and stationed as follows:

1st Regiment in Bautzen

2nd Regiment in Kamenz

3rd Regiment in Cottbus.

It is believed that each regiment has one supply battalion.

(h) It is assumed that at the time the choice for the location of the division headquarters was between Dresden-Klotzsche and Kamenz. Actually the headquarters of the division is located in the Panzerkaserne in Kamenz.
